EDUCATION

University of São Paulo 2022 to 2028

Ph.D. in Bioinformatics

One-year internship at the American Museum of Natural History 2024 to 2025

- Thesis: Museomics of amphibians: Methodological advances and applications of historical DNA to the systematics of rare and extinct frogs
- Advisor: Taran Grant

University of São Paulo

2017 to 2021

B.S. and Licentiate's degree in Biology

- Thesis: Body size, habitat, and sexual selection affect call evolution in Cophomantini (Anura: Hylidae: Hylinae)
- Advisor: Paulo Durães Pereira Pinheiro

AWARDS

- Best undergraduate presentation 2021
II Ciclo de webinars WDA-LA: Estudantes, Wildlife Disease Association
- Best undergraduate presentation 2019
XXVI Semana Científica Benjamin Eurico Malucelli, University of São Paulo

RESEARCH FUNDING

- Travel grant, \$100.00 March 2026
Congresso Latinoamericano de Herpetología
- Ph.D. scholarship, R\$202,528.80 August 2022 to July 2028
FAPESP (grant 22/02789-0)
- Undergraduate scholarship, R\$9,000.00 January 2021 to July 2022
PUB-USP

- Undergraduate scholarship, R\$8,348.40 August 2019 to July 2020
FAPESP (grant 19/11096-5)
- Technical support to research, R\$4,800.00 August 2017 to July 2018
CNPq (grant 372343/2017-1)

CONGRESS PRESENTATIONS

8. **Nakamura DYM**, Montesinos R, Dias PHS, Lyra ML, Wheeler WC, Grant T (2026) Placing lost species into molecular phylogenies: Museomics of *Hylodes glaber* (Anura: Hylodidae). Congresso Latinoamericano de Herpetología, San José, Costa Rica.
7. **Nakamura DYM**, Wheeler WC, Grant T (2025) Is morphology still relevant to phylogenetic analyses? MorphoBank Connects.
6. **Nakamura DYM**, Wheeler WC, Grant T (2025) The impact of phenomics on total evidence analyses dominated by DNA sequences. Evolution Meeting, Athens, GA, USA.
5. **Nakamura DYM**, Grant T (2023) Support in phylogenetics: Do resampling metrics predict optimality-based support in parsimony analyses? XXII Workshop of the Graduate Program in Bioinformatics, University of São Paulo, SP, Brazil.
4. Pereira JM, **Nakamura DYM**, Homma MHM, Grant T (2023) The advertisement calls of three species of *Brachycephalus* (Anura: Brachycephalidae) from southeastern Brazil. X Brazilian Congress of Herpetology, Federal University of Southern Bahia, BA, Brazil.
3. **Nakamura DYM**, Pinheiro PDP, Lyra ML, Faivovich J, Grant T (2023) Historical DNA places a extinct gladiator frog in the phylogeny of the *Boana pulchella* Group (Anura: Hylidae). X Brazilian Congress of Herpetology, Federal University of Southern Bahia, BA, Brazil.
2. **Nakamura DYM** (2021) Fibropapillomatosis in sea turtles and the spirorchiid parasites. II Ciclo de webminars, Latin America, Wildlife Disease Association.
1. **Nakamura DYM**, Zamana RR, Gattamorta MA, Matushima ER (2019) Fibropapillomatosis in sea turtles: are the parasites Spirorchidae (Trematoda: Digenea) possible vectors of *Chelonid alphaherpesvirus 5*? XXVI Semana Científica Benjamin Eurico Malucelli, University of São Paulo, SP, Brazil.

SKILLS

Computation

- Coding: Bash, R, Python
- Software management: Git, GitHub
- Scientific writing: LaTeX, Markdown, R Markdown, Microsoft Office
- Image/Video editing: Gimp, Canva, Adobe (Illustrator, Photoshop, Premiere)
- Operational systems and distributions: Linux (Ubuntu, Open SUSE), Mac OS, Windows
- Others: VS Code, R Studio, Posit Cloud, Jupyter, Conda, Docker, WSL

Molecular biology

- Laboratory: DNA extraction, PCR, Sanger and Illumina sequencing
- Genome assembly: BWA, Bowtie2, Fastqscreen, MITObim, samtools, bamtools
- Phylogenetics: TNT, POY, PhyG, IQ-TREE, RaxML, MrBayes
